

TECHNICAL WORKSHOP

Biomolecular Interaction Studies using Microscale Thermophoresis

Presenter:

Moran Jerabek-Willemsen, PhD
NanoTemper CSO

IBNAM Lab Conference Room
Lurie Medical Research Center
303 East Superior, 11-247
Chicago Campus

Monday, June 6, 2011
10am - 12pm

Learn about Microscale Thermophoresis, a new technology for biomolecule interaction measurement. The presenter will demonstrate interaction measurements on

- protein-liposome
- protein-protein
- protein-nucleic acid
- small molecule-receptor

Bring your samples for evaluation on the Monolith NT.115 instrument after the presentation.

Sponsored by the IBNAM Equipment Core Facility and NanoTemper Technologies
