

IBNAM Equipment Core TECHNICAL WORKSHOP

Weighing the Right Way!

*Presenter: James Joyce
Lab Solutions Consultant
Mettler Toledo*

- How to make your weighting reproducible and stable
- How to handle toxic compounds when weighing
- How to minimize environmental influences (buoyancy, static, magnetics, vibration, wind)
- Are your weighting results different in winter and summer?

Wednesday, October 9, 2013
3 – 4 PM
IBNAM Conference Room
Lurie Research Center, 11-247
303 East Superior Street
Chicago, IL 60611

Seating is limited – please RSVP!
